<b>Color Code Description</b>	White = Identical Calls (based on the corresponding reported data)
	Green = Consistent Calls (based on Crystal's visual analysis of the reads supporting the variants)
	Red = Inconsistent Calls/NoCalls (based on Crystal's visual analysis of the reads supporting the variants)
	Yellow = Equivalent and Consistent Calls for Adjacent Rows (based on Crystal's visual analysis of the reads supporting the variants)
	Grey = Hard-to-assess Calls (insufficient data in Crystal's visual analysis of the reads supporting the variants)
